LIBERATE
LIFE

Hugo with an H

Hugo with an H

Adapted from Hugo con Hache, originally developed as part of a collaboration between SOBI and Ashemadrid

Hugo with an H is a magic story about the feelings, fears and dreams of a boy with haemophilia. It's a great way to learn everything about haemophilia, encourage teamwork, empathy and share values.

For **Hugo**

the universe
seems **strange**
and **unforgiving**

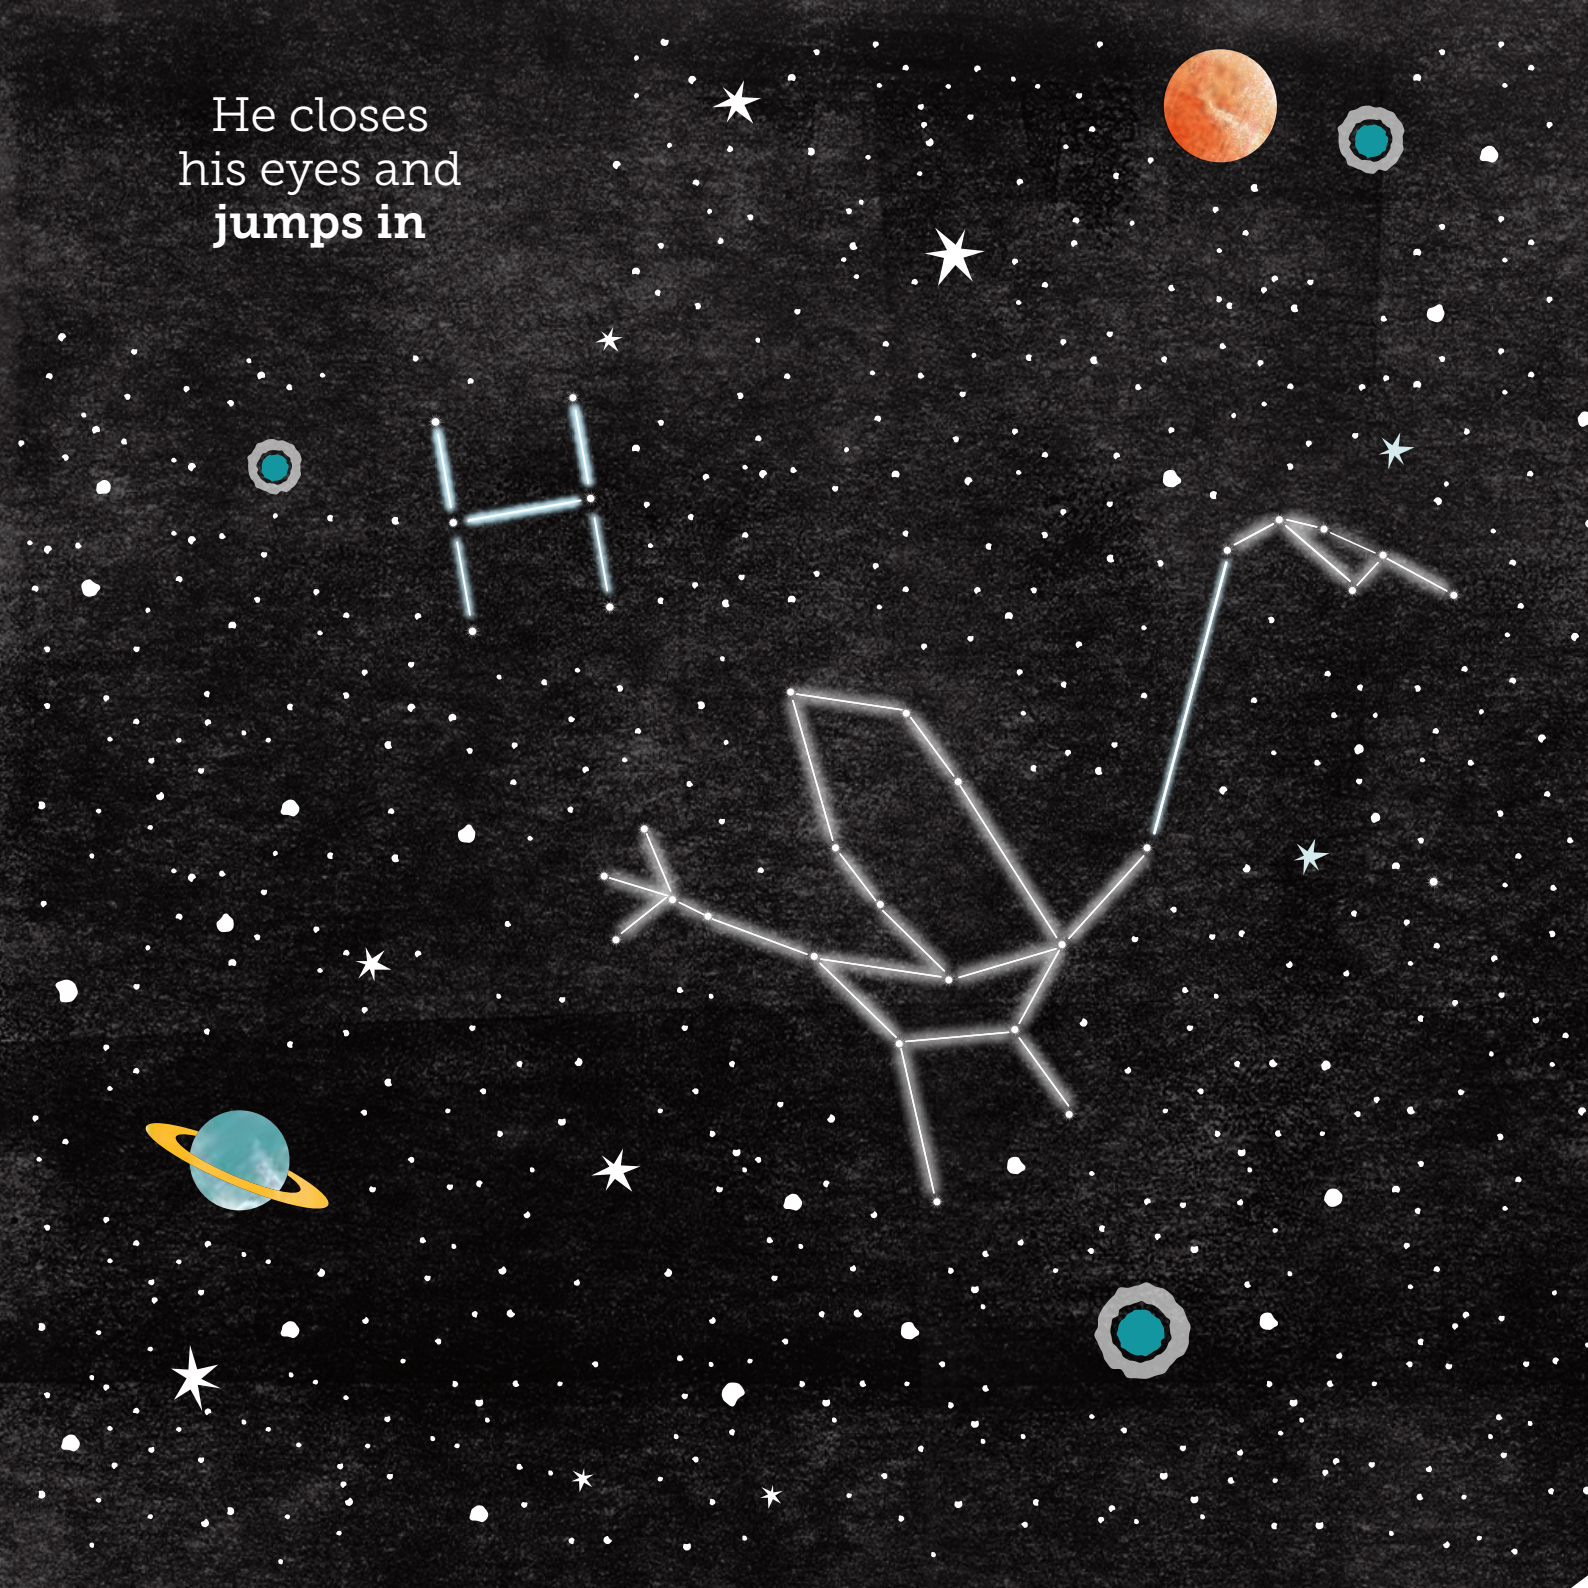
When the darkness descends he screams '**why me?!**'

But **nobody**
answers

He sees all
sorts of
amazing things
happening

He tries to
grab them

but, as much as
he tries, **he can't**



He closes
his eyes and
jumps in

but he gets **lost**

Hugo doesn't know **where** he is or **what** he should do

Everything seems to be going from **bad** to **worse**

But, suddenly, he sees it by his side

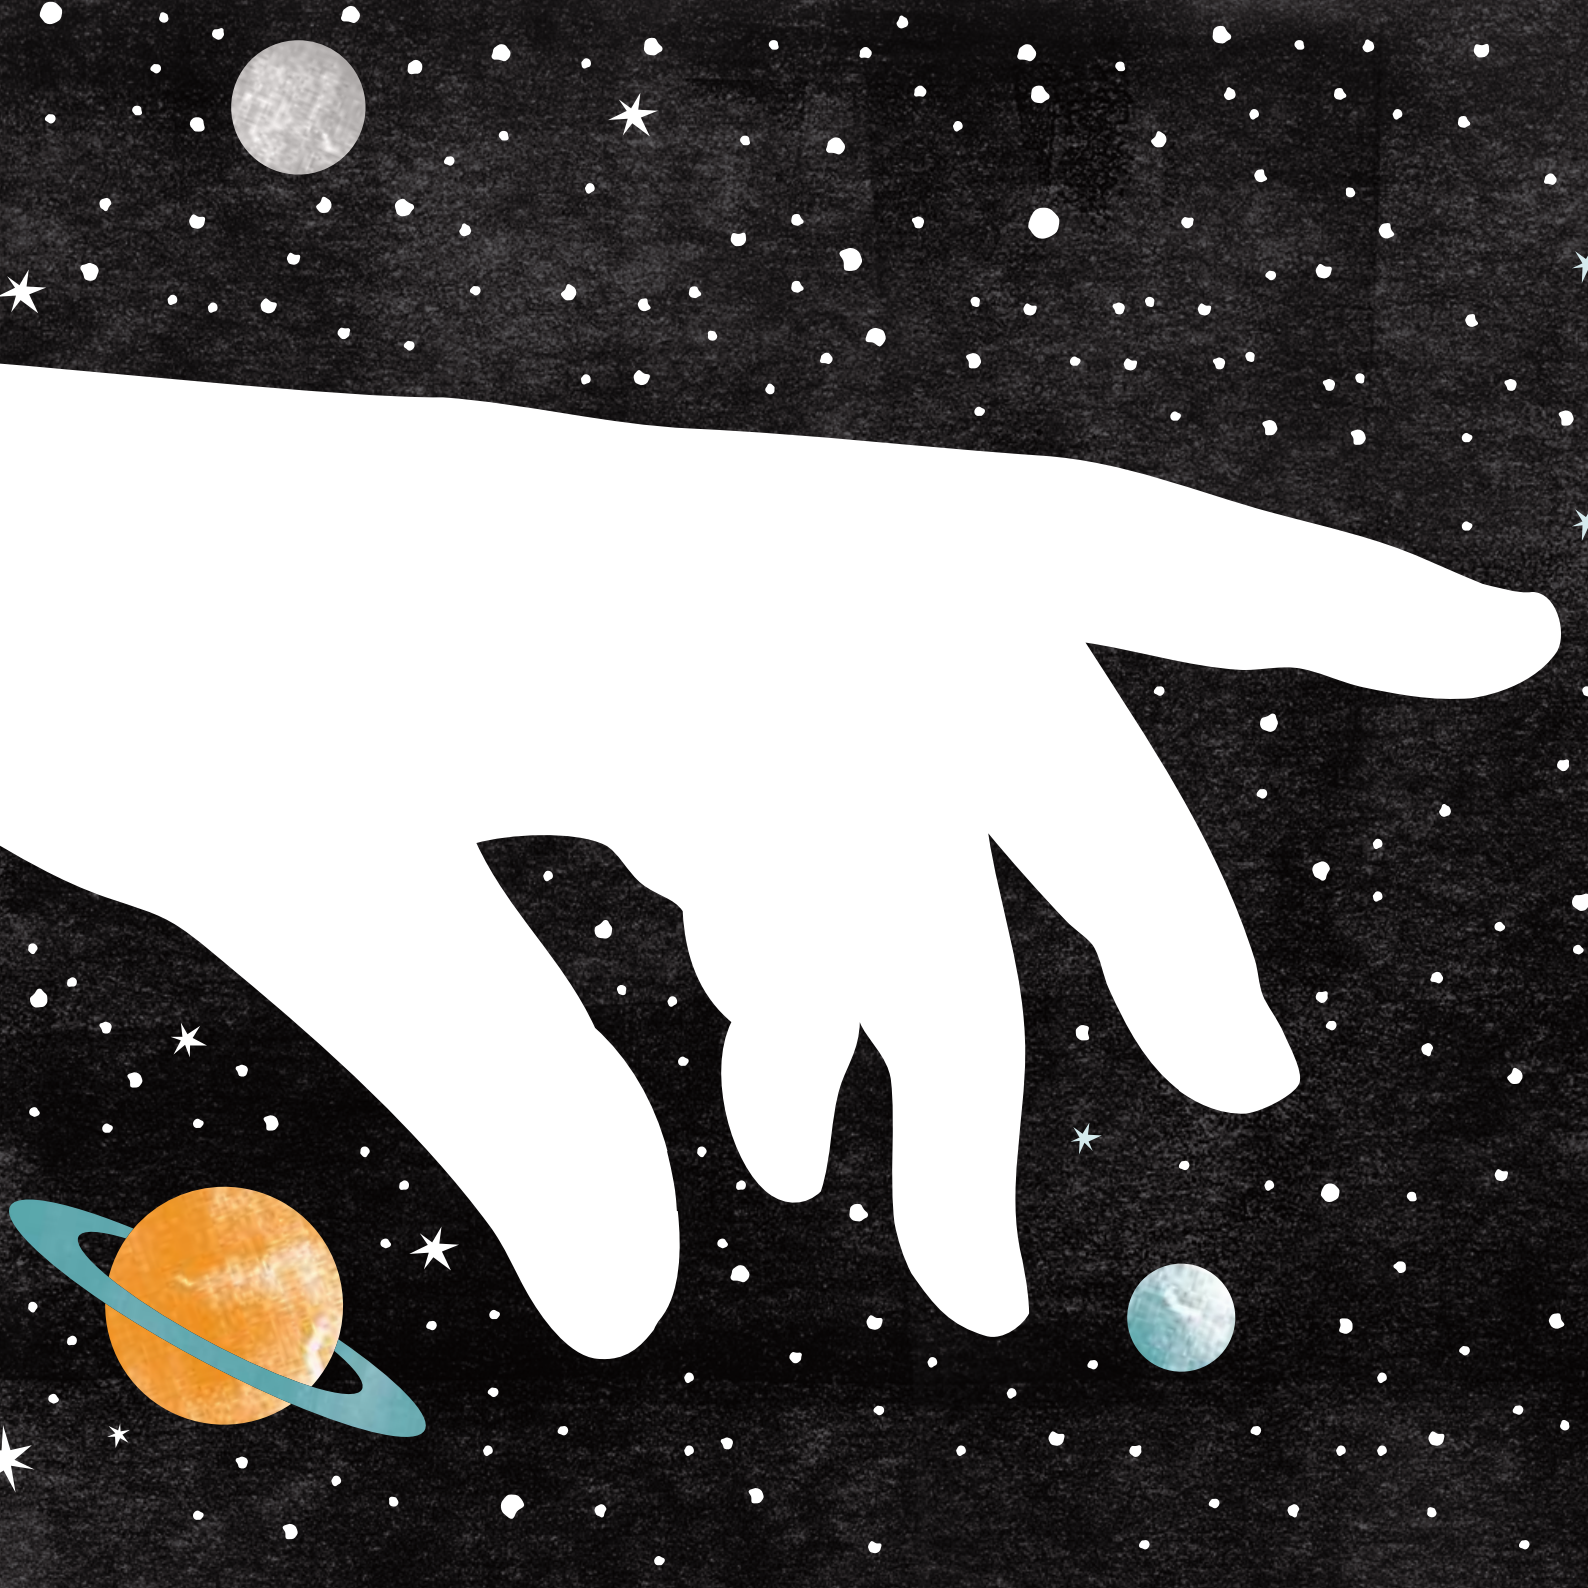
and **he sees himself...**

running like
the wind

crossing
continents

flying free
with the
birds

Standing
on the
podium as a
champion

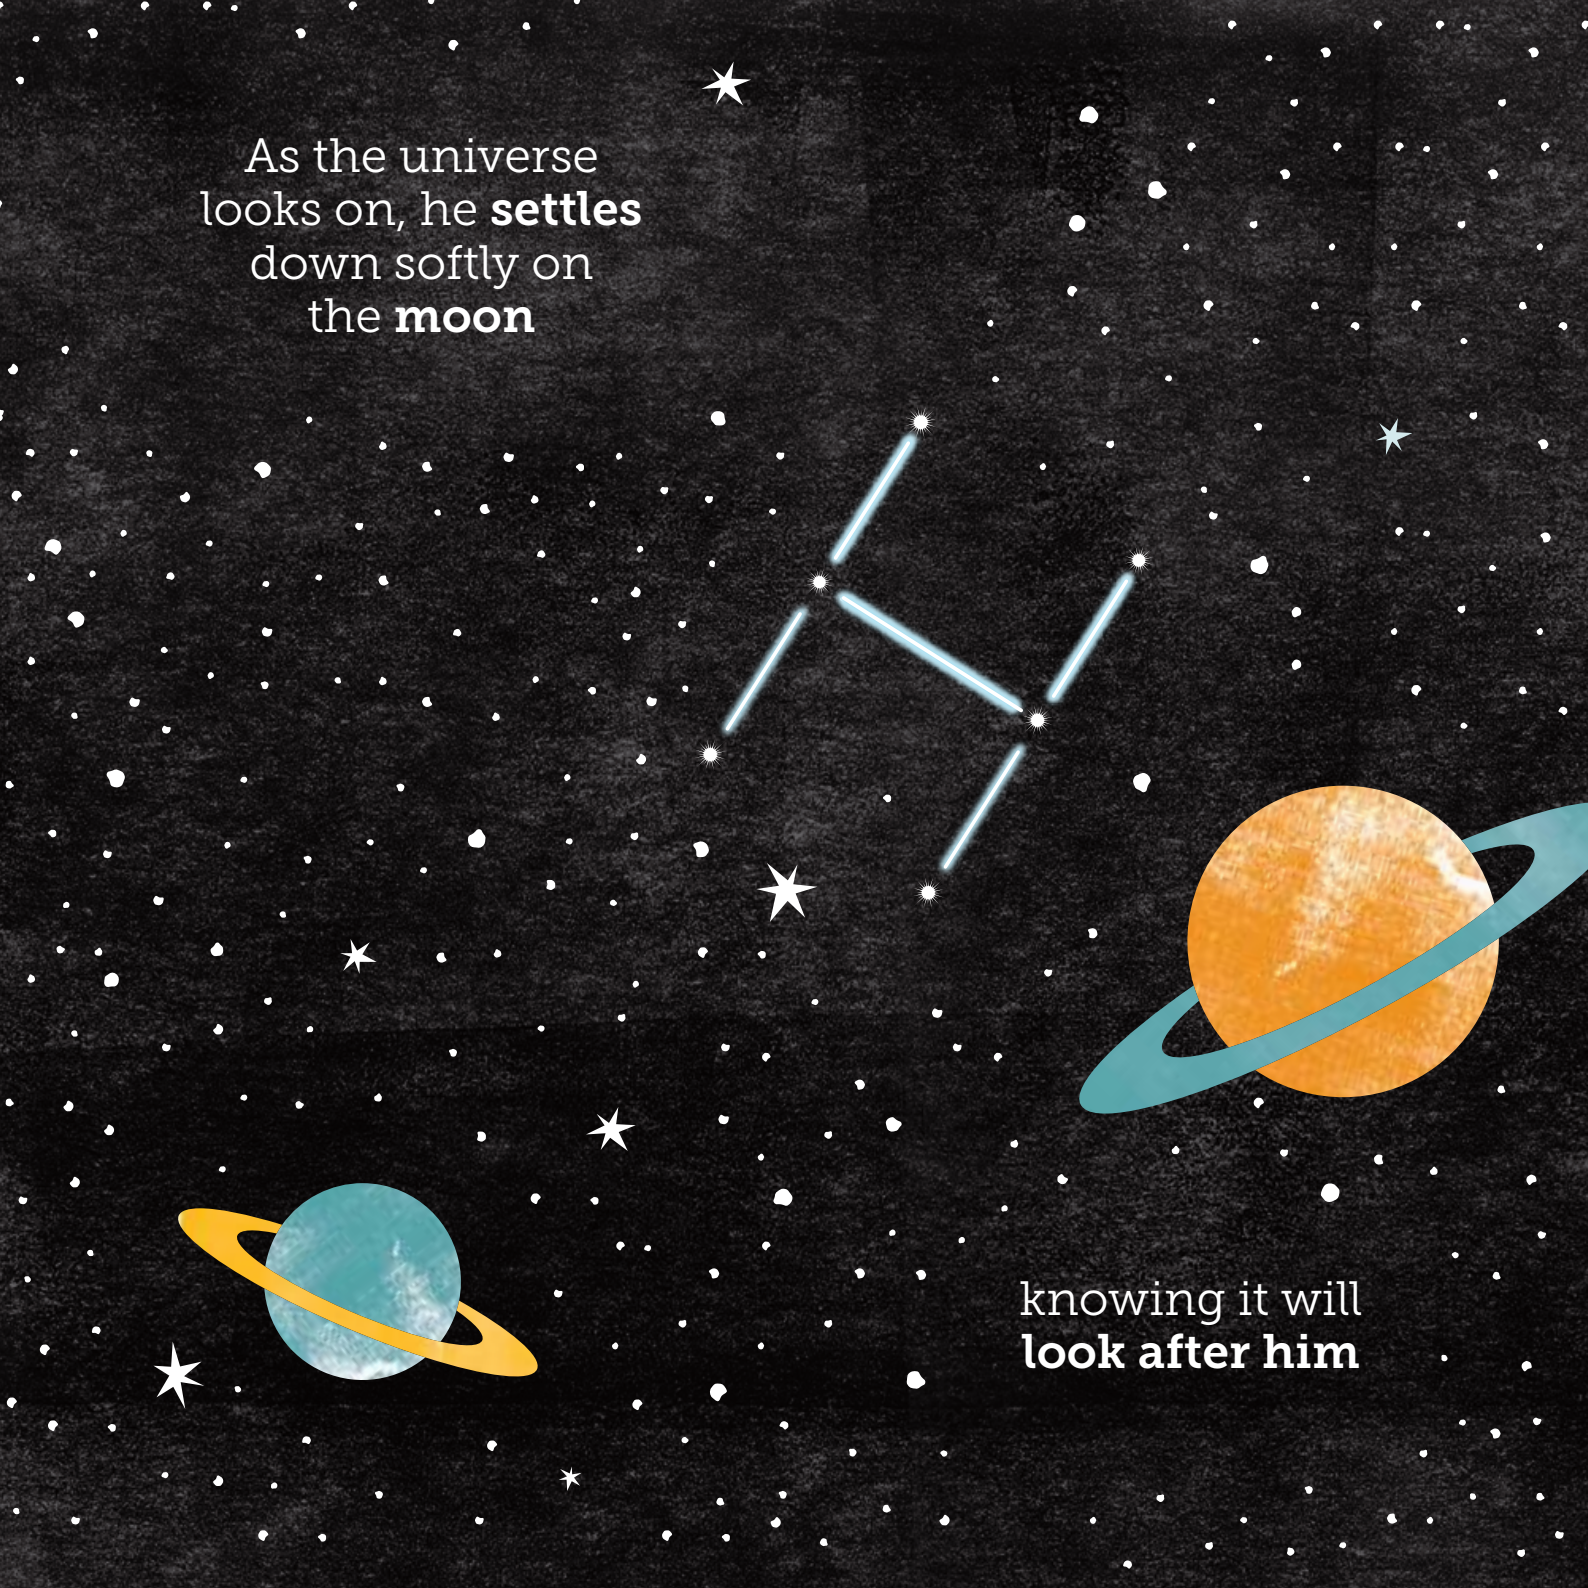


Swinging
among
the stars

Waving at the planets,
he catches a **ride**
on a **comet**

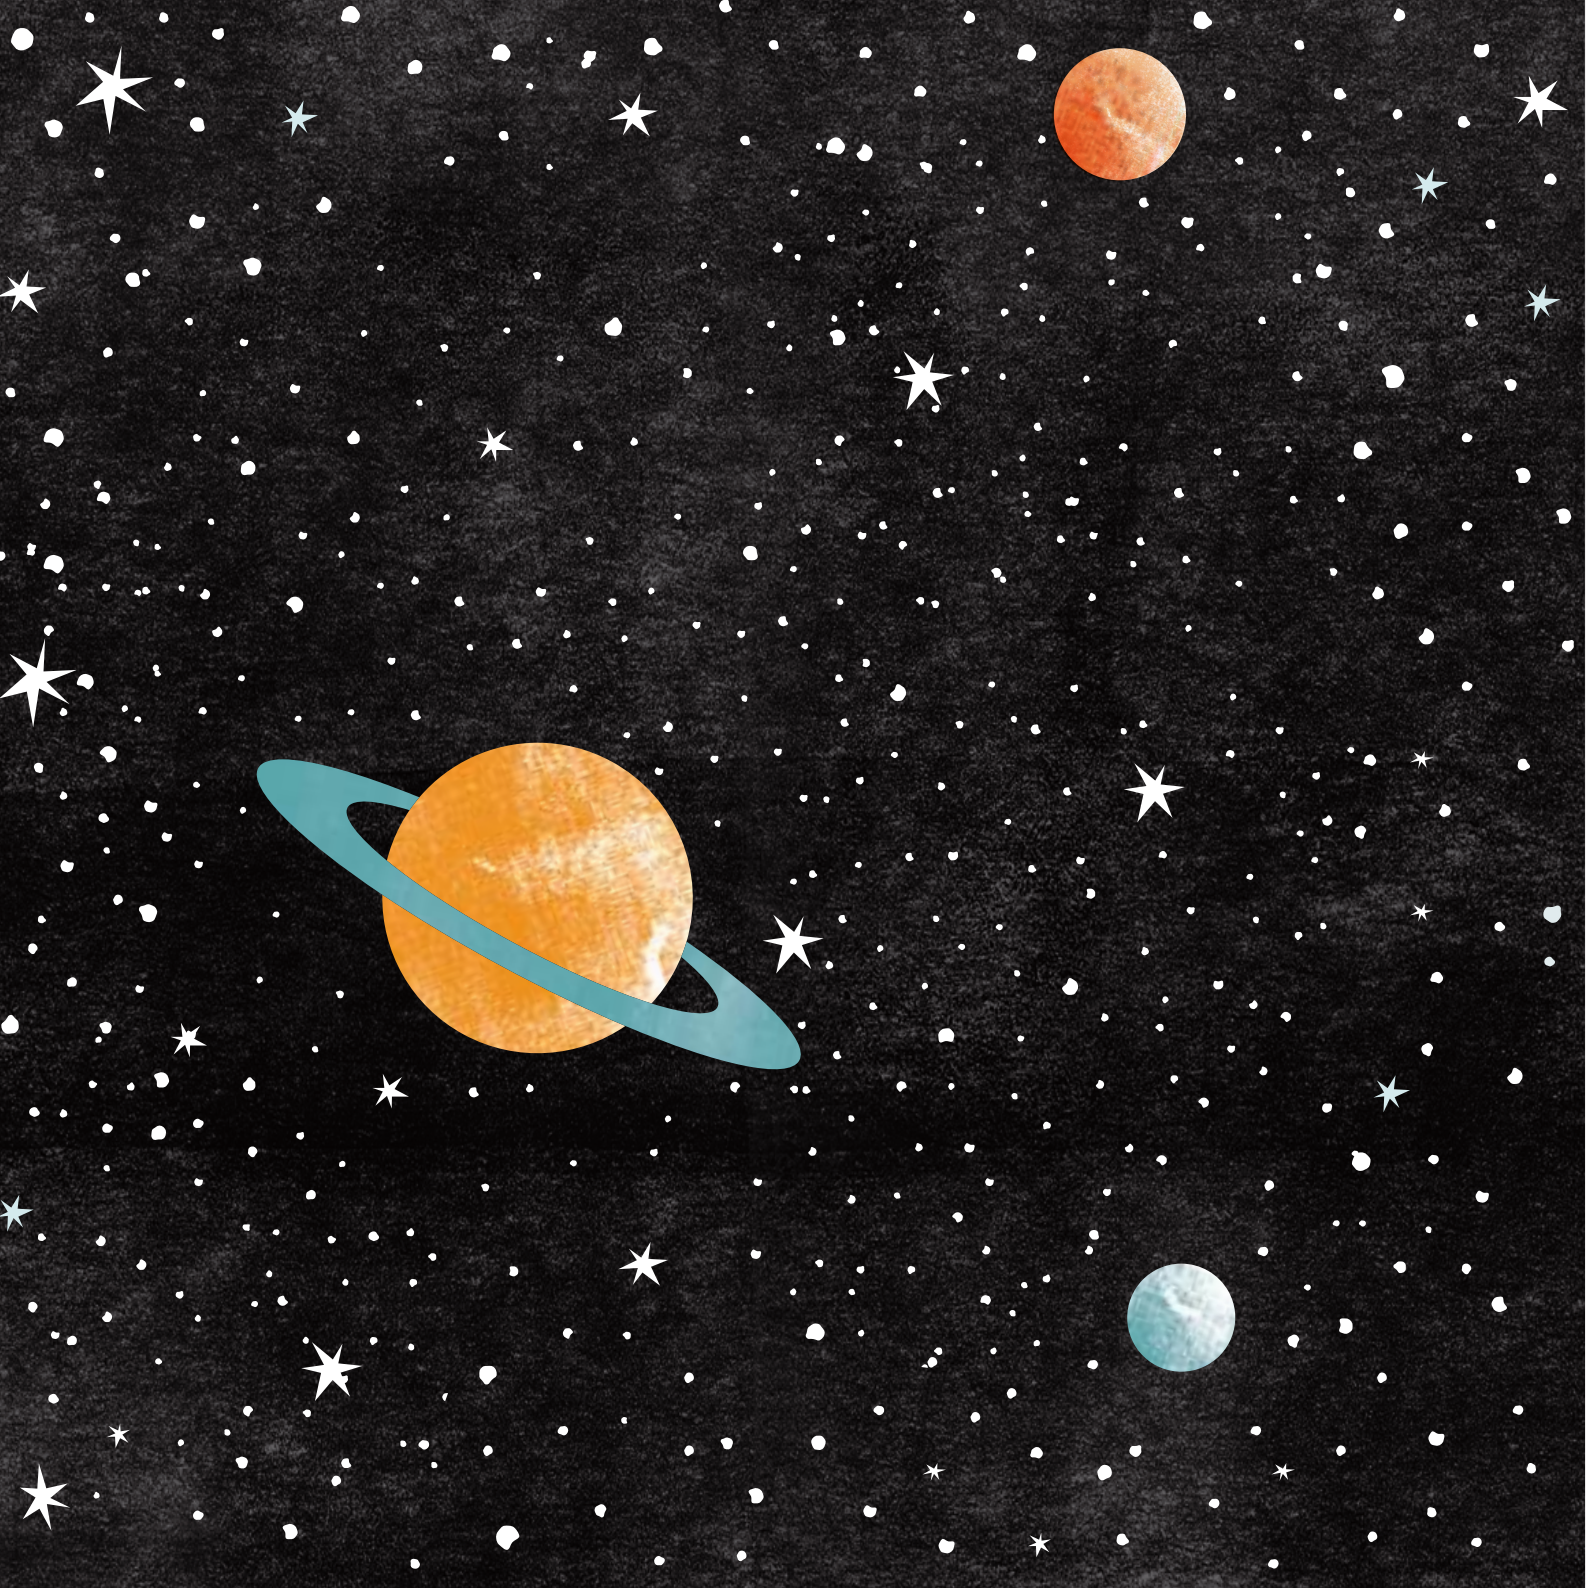
They soar **further**
into the night

As the universe looks on, he **settles** down softly on the **moon**



knowing it will **look after him**

Now and
in the **future**



To find out more about haemophilia, how best to manage it and what activities are available check out the other resources on **LiberateLife.eu.**
